

Ankle socks

Short description:

Ankle-length custom socks made from soft, stretchy polyester

Long description:

Our blank sublimation socks are made from 100% polyester, giving them a soft and stretchy feel. Polyester is also naturally quick-drying and helps to wick away moisture and sweat.

Cut to the ankle and featuring contrasting black heel and toe panels, Prodigi ankle socks are available to order in two sizes (men's up to UK 11 and women's up to UK 6).

With a pure white base to print onto, these print on demand socks are produced using dye-sublimation technology for a vibrant, long-lasting finish.

Please note: We recommend using a design that covers the entirety of the printable area – preferably a pattern or design that is not dependent on exact positioning, since this can't be guaranteed with dye sublimation.
